Annex 1

How We Make Money?!! How We Gain Profit?!!

Our policy is not to make the customers responsible for our profits but our good service is solving some problems like:

- Higher turnover resulting from the difficult transition staff is what makes the company needs to provide transport facilities for its employees.
- The difficulty of communication between the foreign experts on the one hand, engineers and technicians from the Egyptians on the other hand what makes specialized interpretation is an important requirement irreplaceable.
- Wasting foreign experts who

are costing their stay in Egypt a lot of money as whether the original company and the company host what makes a means of transportation to ensure the use of time to optimize.

- And other problems, which is the availability of transportation standard of living and the price is a suitable means to resolve them and to provide the companies and factories a lot of money, effort and time.
